Subject: PERCHLORATE CALL ON NEXT PEER REVIEW

---

**\*\* High Priority \*\***

Vanessa and Amy,

Attached is the call-in number for a discussion that Bill is having with Lt. Col. Dan Rogers (AF), and Kevin Mayer and Catherine McCracken regarding their concerns and questions of how the peer review for perchlorate was handled. I am hoping that you can join in. especially because Region 9 very much wants this to be a streamlined effort onto IRIS the next time out.

Thanks in advance. I can not make the call because I am teaching a class on human health and ecological assessment (appropriate, no? I am going to mention perchlorate...) at Duke at 6 pm.

Let me know what happens.

Annie.
